The CAHC Youth Advisory Council

Become a VOICE!

Mission Statement

The Child Adolescent Health Center Teen Advisory Council is committed to creating a youth (14-20years) friendly health center by aiding in the availability of relevant and beneficial activities, and planning and implementing active youth programs that are applicable to issues/concerns facing adolescents today.

- The Teen Advisory Council (T.A.C) is to give teens the opportunity to participate in and influence teen services at the Child Adolescent Health Center (CAHC) and to improve the center to its maximum potential by providing an absolute youth environment.

Walk-ins
Welcome

Your Health Center

The ACCESS Child and Adolescent Health Center began in 1990 in a small office in south Dearborn and is one of longest running programs today. Understanding the need for quality healthcare for children and teens, the CAHC wanted to provide a place where youth can feel comfortable in discussing their healthcare needs. The Child and Adolescent Health Center, now located in the Community Health and Research Center, offers a comfortable place for teens to come and talk about their issues and needs. It's a place for quality medical care as well as a place to come after school and finish homework. The idea is for youth and their friends to make the center their home away from home. Providing a youth friendly environment suitable for all youths to come and enjoy. All of our services are offered to youth between the ages of 10 to 21, with or without insurance.

Clinical Services

The CAHC offers many primary and preventative health care services for teens between the ages of 10 to 21.

- Medical care for illness & injury
- Well child care including school and sports physicals

- Immunizations/Vaccinations
- X-rays
- Lab tests (pregnancy, immunity titers, TB test, etc.)

The Health Center also offers confidential services such as:

- Free HIV/STI testing and counseling
- Pregnancy testing
- Mental Health assessment, counseling and referrals

Outreach and Education

The CAHC provides awareness workshops, presentations, and focus groups to youth on a variety of health topics.

- Nutrition/Healthy eating
- Physical activity/exercise
- Tobacco and Substance Abuse
- Mental Health (anti-bullying and parenting education)
- Personal Hygiene
- Healthy Relationships
- Life skills and effective communication
